ABOUT

Greetings, I'm Joshua Bergman, a seasoned full-stack developer from Eagan, Minnesota. My passion lies in crafting elegant and user-friendly applications, emphasizing simplicity and cleanliness in both code and design. My primary expertise resides in React.js and Typescript, although I possess a strong command of Node.js, Express.js, MongoDB, and Python as well. To explore my work further, I invite you to peruse my portfolio.

SKILLS

React.js | Typescript | HTML | CSS | Jest | React Hooks | Node.js | Express.js | MongoDB | Javascript | Git | Redux
EcmaScript | Firebase | Heroku | AWS | Batch Scripting | Mock Service Worker | Windows | UNIX | Linux | Python
SCRUM | AGILE | Frontend | Backend | Fullstack | Database | Automation | REST | GraphQL | Responsive Web Design

PROJECTS

My Developer Portfolio (Source Code)   joshuabergman.dev
Tech: `React, TypeScript`

My portfolio is a showcase of my journey as a developer. It serves as a comprehensive platform to display my talent, development history, and skills. Built using React and TypeScript, it features a custom GitHub display component, my repositories, key projects, and about me. This project reflects my passion for web development and my commitment to continuously improving.

Auto Cover Letter (Source Code)   autocl-abb1d.web.app
Tech: `React, TypeScript, Node, Express, AI`

AI-driven Cover Letter Generator with a user-centric focus. Leveraged machine learning to quickly generate personalized cover letters based on minimal user input. Facilitates a seamless transition for users from the intricacies of cover letter composition, enabling them to concentrate on articulating their qualifications as a strong match for the role.

Quick Budget Tool (Frontend Code) (Backend Code)   quickbudgettool.com
Tech: `MERN, Typescript, Jest`

QuickBudgetTool excels at rapidly crafting budgets, emphasizing simplicity and speed. While it doesn't serve as an investment tracker or specialized financial application, its strength lies in dissecting your month-to-month cash flow.

Algo Example (Source Code)   algoexample.com
Tech: `React, TypeScript, Collaborative`

Algo Example is an educational platform dedicated to the exploration of data structures and algorithms. Offering interactive algorithm visualization, engaging user interactions, and interactive games, Algo Example represents a passionate collaborative effort. Personally spearheading the app's creation, execution, and deployment, I've taken a hands-on role in every facet of its development.

EXPERIENCE

Closing Expert - Target   Eagan, MN *Sep 2019 - June 2021*

- Routinely received top performer awards & other awards in recognition of hard work and excellence in customer service.
- Led small teams to timely & efficiently carry out store projects.
